GENERAL POLICIES

1. General: USASMA has compiled this list of links to PLDC courseware, at <https://147.71.234.24/PLDC/PLDCMOB/Default.htm>, to include the Course Management Plan (CMP) and Program of Instruction (POI), for the Reserve Component academies. The program at the NCO Academy is designed to test each student every day in all aspects of performance. Students must prepare themselves to carry out all their tasks with the highest standards of performance. The goal of this Academy is to train and educate leaders based on the 23 Leadership Dimensions and all students are expected to strive to meet that goal.

2. Weight Program: Soldiers attending courses offered at this Academy must meet the standards outlined in AR 600-9 and AR 350-41. Students will be screened during inprocessing. Soldiers who exceed the Screening Table Weight will be taped. **Soldiers who exceed the Maximum Allowable Body Fat Percentage standards will not be enrolled in the course.**

3. Student Pay: The student's parent unit has the responsibility for processing student pay. Pay for members of the Individual Ready Reserve (IRR), will be processed by the Army Reserve Personnel Command (AR-PERSCOM) or the National Guard Bureau and mailed to the student's home of record. **You are advised to bring enough money for personal expenses. This may include shuttle fare to and from the airport (approximately \$65.00 one way).**

4. Valuables: Students are reminded that the safekeeping of valuables is a personal responsibility. Valuable items should not be brought to the Academy. Keep not only valuables, but also all belongings under lock and key. Security is the soldier's responsibility.

5. Off Limits: All offices are-off limits to students, unless directed to report by their SGL'S. Billets are off limits to members of the opposite gender, except when inspections are being conducted.

6. Privately Owned Vehicles: POVs will only be parked in the designated area, which is located near the billets.

a. Effective, Wednesday, 29 May 2002, individuals not having a valid decal or pass will be directed to Check Point #1, located at Wrightstown Circle. - (1) Valid state drivers license
- (2) Valid military/civilian government identification Card
- (3) State registration card for the vehicle with a current inspection sticker
- (4) Valid and current insurance card

c. You do not have to own the vehicle in order to register it, but you must have a current lease agreement for the vehicle, power of attorney, or notarized statement from the owner of the vehicle, specifying the inclusive dates for which permission to use the vehicle has been granted.

d. To register your vehicle, in advance or at any time, stop in at the Military Personnel Directorate (MPD), Building #5418. For additional information on registering vehicles you can contact MPD or the Fort Dix Police Administrative Office at 609-562-4260/3734.

Visitors will report to the Admin Office Room 117 in Building 5518, during duty hours and to the SDNCO in Room 104 after duty hours. Because students are in an intense training posture and do not have the time for constant visitors, visiting hours are on a limited basis during morning and evening meal hours. Students are responsible for the conduct of visitors at all times while in the Academy area. Under no circumstances will visitors be allowed in the billets; they must remain in the common areas at all times (i.e., Dining Facility, Day Room or other areas designated by the Course Manager or SDNCO)

8. Physical Fitness Training: As part of training, students are required to participate in the Army Physical Fitness Program in accordance with AR 350-41 and FM 21-20. Running is included in this program. All soldiers are required to pass an APFT as a graduation requirement.

Students with a permanent/temporary profile may not be enrolled if the profile will preclude them from completing graduation requirements. (i.e. PLDC students with a profile prohibiting him/her from wearing a Kevlar helmet, carrying/firing a weapon, or running at own pace and distance would not be able to complete the field training exercise). PLDC students must thoroughly read the physical requirements in "INDIVIDUAL COURSE SPECIFICS".

10. Safety Responsibilities: Promoting safety-conscious habits and complying with safety policies is the responsibility of all soldiers. Safety is an individual, as well as a command responsibility. Safety and accident prevention requires awareness of dangers and continual alertness to minimize and prevent accidents.

11. Releases Prior to Completion of the Course: Students may be dismissed/disenrolled from a course by the NCO Academy's Commandant before course completion for the following reasons:

- a. Disciplinary Reasons
- b. Lack of motivation

12. Appeals of Disenrollment for Motivational, Disciplinary, or Academic Reasons:

a. Appeals of disenrollment must be submitted within seven (7) days after receipt of the written notification. Appeals by students will be forwarded to the Commandant of the NCO Academy for appropriate action.

13. Graduation: A graduation ceremony honoring students who successfully complete the course of instruction will be conducted on the final day of the course.

STUDENT ADMINISTRATION

1. Student Conduct: US Army NCO Academy teaches and enforces the standards of the United States Army as prescribed by appropriate regulations, traditions, and directives. It is the student's responsibility to maintain these standards during the course of instruction and throughout their military career. While on or off duty, students will maintain high standards of appearance and conduct. Misconduct may result in immediate disciplinary action and dismissal from the Academy.

2. Student Assignment: During inprocessing, students will be assigned to their billets and group. It is very important that students place their rank, name, and student number on all correspondence while here at the Academy.

3. Small Group Leaders: One Small Group Leaders (SGL) will be assigned to each group. The SGLs are the first link in the NCO Academy chain of command and their instructions are to be followed. They are not authorized to render any assistance, which would give one student an unfair advantage over any other student. They will assist students in any other way possible.

4. Billets: Students will reside in Academy billets while attending the Academy. Maintenance of living areas is the responsibility of the student chain-of-command.

Academy staff will conduct daily inspections of living quarters. Students are expected to maintain their living areas in a high state of cleanliness at all time.

5. Uniform and Equipment: Students are required to have certain items of clothing and equipment in their possession while at the Academy. **The responsibility of obtaining the necessary TA- 50 equipment belongs to the unit and the soldier.** If the soldier's unit does not have an item they must obtain it through the chain of command before the soldier reports to the Academy. Students who have unserviceable items of clothing or equipment will obtain those items before the start of training on day one. The uniform for each day's training is indicated on the training schedule. The US Army NCO Academy enforces AR 670-1. Two pairs of boots are required because of the damp conditions in the training area.

6. Training Schedule: A copy of the training schedule is posted and available to each student. The training schedule provides daily guidance.

LEADERSHIP

1. Purpose: This section outlines the responsibilities of students toward the leadership development program and the maintenance of the student area.

2. General: The instructors and student chain of command work together to develop the leadership potential at the Academy and to ensure the smooth operation of the student chain of command. The student's basic responsibility to understand the provisions of the Student Guide and make maximum efforts to comply with the instructions given. SGLs are responsible for ensuring that they are aware of all changes so the student stays informed.

3. Counseling: Counseling sessions, both verbal and written, will be used to help develop the professional standards, habits, attitudes, and to correct deficiencies. As a minimum, students will receive formal counseling as follows:

- a. Initial counseling after inprocessing.
- b. After serving in a leadership position.
- c. After failing an examination.
- d. At the end of the course.
- e. As required based on positive or negative conduct.

4. Conduct: Leaders attending this Academy must always conduct themselves in a professional manner and strictly adhere to current Army regulations. Violations of established standards of conduct may result in dismissal from the course and the Academy.

5. Student Chain of Command:

a. Instructions from the student chain-of-command must be strictly adhered to by all students to ensure that tasks are accomplished according to the standards of the NCO Academy.

b. Full cooperation of all students is required at all times although a student leader may actually be of a lower rank than some of his or her subordinates. Failure to respond to orders issued by a student leader could result in disciplinary action or release from the Academy.

6. Honor Code: A high sense of honor is the mark of a true leader. There is a need for character and integrity in the military leader of today. Recognize this as a basic requirement for being a NCO. The Code of Honor represents the American interpretation of customs and philosophies, and combines tradition with practical military necessity. Honor is a virtue and a fundamental attribute of character, which implies truthfulness, integrity, loyalty, courage, and self-respect. While admirable in all people, honor is indispensable to an NCO. The untruthful NCO may be risking the lives of fellow soldiers and the honor of the country. The honor code accepted by the NCO Corps is the NCO Creed.

7. Honor Code Violations: A violation of the honor code is cause for disciplinary dismissal from the Academy. Students will prepare their own presentations and complete all examinations on their own. Students violating this trust will receive a failing grade on the test or the presentation in question, and face dismissal from the course.

ACADEMY STANDARDS OF EVALUATION

1. Standards of Conduct: The US Army NCO Academy is dedicated to the principle of "Leadership by Example", based solely upon the "whole person" concept.

2. Student Leadership Assessment and Developmental Counseling: The SGLs will maintain record reflecting counseling and daily performance notes on each student. Student leadership assessment uses the 23 Leadership Dimensions, as a basis for assessment and counseling.

3. Examinations: Examinations and graded presentations are administered as a mandatory item in this Academy and are essential in meeting the POI and prerequisites for graduation. The Test Control NCO or his/her designated representative administers all examinations. Written examinations test student knowledge of Enabling Learning Objectives (ELOs) from lessons in the course. Not all ELOs are tested. Students must achieve 70% or higher in each of the written examinations in the course. Students failing to achieve a score of 70% or higher are afforded an opportunity to retest (one retest only). Students who fail the retest will be academically dropped from the course.

a. Examinations and graded presentation missed for a valid reason will be made up IAW the Standard Operating Procedures (SOP) and Training Schedules. Retesting will be conducted IAW the Academy Training Schedule.

b. The use or preparation of any device to be used for cheating or compromising an examination constitutes an honor code violation and may result in disciplinary release from the Academy.

COURSE STANDARDS

- 1. Purpose:** The performance summary is intended to measure the level of performance of each student against the course standards.
- 2. Exceeded Course Standards:** This honor is reserved for those students whose overall course achievement is significantly above the standards of the course. This category is restricted to 20 percent of the class enrollment.

The focus of the course of instruction is the preparation of squad and section leaders to "go to war". The course is non-MOS specific with emphasis on "train the trainer" duties, responsibilities, and authority of NCOs. Students learn how to lead and how to train. Emphasis is also placed on leadership in the combat environment. The course is fast-paced and challenging. Throughout the course, students are required to demonstrate what they have learned. During the stress-oriented tactical field training exercise, students will be placed in many stressful situations requiring them to react under conditions similar to what may be encountered in combat.

5. Student Evaluation: The evaluation process is designed to look at the "whole soldier": attitude, physical condition, leadership ability, and the ability to work with others.
